

AVerTV CaptureHD

Amazing ! Watch TV and Play HD Games at the same time with your PC

AVerMedia takes the lead of TV tuner card into a new generation. AVerTV CaptureHD is the first one in the world to provide users this new generation application.

Enjoy True HD 1080i

AVerTV CaptureHD can support HDMI/HDCP input display up to 1080i* resolution and compact audio/video/composite/ component (1080i) interface for transmitting uncompressed digital data. It also can capture or record HD content in MPEG-2 format from PS3, Xbox 360 and digital camcorders. **

*The 1080i will only function when the signal source comes from 1080i format.

**Supports HDCP-free recording in MPEG-2 format.

Watch TV and Play HD Game at the same time

Exclusive PIP (Picture in Picture) Mode for users to play real-time HD games on the main screen and watch TV on PIP screen.

Enjoy your shows on iPod with real-time H.264 recording technology

The latest AVer MediaCenter software program offers advanced real-time H.264 recording compression technology up to resolution of 320X240 iPod video format recording. It also saves more than 4X hard disk spaces comparing with MPEG-2 format.

AVer MediaCenter

Your Personal Multimedia Control Center-AVer MediaCenter

A clean and simple way to enjoy TV from your sofa

The new 10-foot user's interface provides you a easy way to access all your PC based media via the easy-to-use remote control.

TV | Enjoy an easier way to watch and record TV programs, even watch multiple channels at the same time via an antenna, cable, or satellite TV signals.

Teletext overlays on the screen just like it would on your TV for convenient viewing

Video | It offers an intuitive way to view your video files and folders by date or by name, providing an interactive video playback experience.

FM Radio | Offering instant access to FM radio, allowing you to listen to live radio, record, and TimeShift whenever you want.

Easily customize your viewing experience

- Multiple TV Tuner Cards Support
- PIP / PAP Setting allows the viewing of multiple channels simultaneously
- Sequential Snapshot
- Customized Color Adjustment
- Media Files Management
- Complete Channel Scan Capability
- Record Videos in MPEG-1/2/4 Format

Expand your multimedia horizons!

Music: Easily access your personal digital music library, play it as background music while viewing the slideshow photos or using other functions on your computer.

Pictures: PC monitor is too small to share pictures with family and friends? AVer MediaCenter offers a fun new way to enjoy and share your digital photos with stylish slideshow effect.
